Lecture 2

Digital Image Processing

Prof. Shih-Fu Chang

Digital Video and Multimedia Lab
Columbia University
Jan. 23 2006

Outline

- Last week
  - Introduction of topics
  - Course logistics
- This week
  - Trichromatic color representation, color spaces (hand notes)
  - Matlab tutorial
  - Reading: Readings: G&W 6.1-6.2, Jain 3.7-3.8
  - HW#1, Due in a week, Jan. 30 2006
Matlab Tutorial

- Basic commands
- Image processing examples
- 2D DFT examples
- Tutorial files available on course web site
