Summary of M.S.E.E. Degree requirements:

1. ___ 30 course credits, all 4000-level or above, and taken for a letter grade (i.e., no P or R grades).
2. ___ at least 15 credits at, or above, 6000 level.
3. ___ at least 15 credits in EE (including joint courses); 12 of these should be taken within the first 24.
4. ___ No more than 6 research credits (e.g., ELEN E4998, ELEN E6001, ELEN E6002).
5. ___ No more than 3 credits total for courses (a) Outside of SEAS and the Math & Science departments (e.g., Economics or Business courses), or (b) Non-technical courses in SEAS or the Math & Science departments (e.g., IEOR E4702 Human Factors); these courses require advisor approval.
6. ___ No credit for Math & Science courses covering traditional undergraduate engineering topics (e.g., STAT GU4203 Probability Theory).
7. ___ 1 credit for required PDL course (outside of 30 credits, but no tuition fee).
8. ___ 2.5 GPA minimum.
9. ___ Completion within 5 years; students on a visa need to respect the time limit of their visa, typically a maximum of 3 semesters.

Important Notes:
1) All courses outside the standard list on the next page must be approved.
2) Course “credits” are same as the number of “points” for each course.
3) Each student is responsible to ensure that the courses they select satisfy all requirements, especially if they are constrained by a deadline, e.g. imposed by their student visa.
4) the checklist is just for tracking purposes and that the bulletin is the authoritative source for the program requirements.
