

# FACEBOOK

AICER can be used as a Chrome extension tool supporting seamless use on Facebook website. While browsing friends' pictures, user can ask for suggestions of creative comments by simply clicking on an embedded function button. User has full control in indicating preferred comments and editing the suggested comments before posting.

The Chrome extension tool will be available soon.

# WEB DEMO

Try out this web demo!  
Just upload your favorite image  
and see what AICER will  
suggest for comments.
