

**Reading assignment:**

“Factorial models and refiltering for speech separation and denoising”, Roweis, Proc. Eurospeech, 2003. Add your comments to the Courseworks discussion board as usual.

<http://www.ee.columbia.edu/~dpwe/e6820/papers/Roweis03-refilter.pdf>

**Practical assignment:**

No practical assignment this week.

**Project:**

This will be the last assignment for the class. Final project presentations are in 2 weeks, on April 28 and 30, and will follow much the same procedure and timing as the midterm presentations (but without the peer grading).
